I also have an 02 WRX wagon. Just did the turbo and had a few coolant leaks a few days later. I replaced all the water and vacuum hoses. Everything. Also had to use clamps on everything because there were barely any. When I burped the coolant system both times I topped off the rad first, then the overflow tank.

Checking the engine coolant (also known as antifreeze) level in your 2002 Subaru Impreza is pretty easy. In order to get an accurate reading, your 2.0 liter engine should be cool to the touch when you check it. Engine coolant circulates through your engine to keep it cool in the summer but won't freeze in the winter.
